RE: Replacement Automotive Glass

At Protector Autoglass we know how hard and costly it can be finding replacement windscreens when you have a rare vehicle.

Protector Autoglass manufactures and supplies automotive glass for *rare, prestige, exotic* and *import vehicles* to wholesale and private customers Australia-wide as well as meeting individual specifications for export. We are able to tailor production to meet our customer's needs and follow through with packaging and delivery.

We are able to fabricate our own windscreens in a short run in our flexible plant located at Beenleigh, South East Queensland and offer over 4000 windscreen and specialty glass products.

If we don't currently have your particular model, we may be able to make a mould and manufacture one for you.

Protector has 82 Alliance members Australia wide and therefore is able to assist with installation if required.

Protector has achieved its success by offering superior products through the use of cutting edge technology and a dedication to Quality Assurance which has earned them the highest accreditations possible both in Australia and throughout the world.

Our range of windscreens has passed the most stringent quality standards for Autoglass in the world including:

- ISO 9000 Accreditation
- The European Standard ECER43-E-Mark Approval No E1143R-00242/282/283
- US Department of Transport Id Code for our Beenleigh facility

To check availability or for further information, please contact one of distribution centres or view our catalogue at www.protector.com.au
